INFINEON RACEWAY ET SERIES POINTS STRUCTURE

Points are awarded based on the size of the field and the round where a racer finishes. For example, if there are 52 cars in round 1, then the 33-64 field size will be used for points with round 1 losers receiving 31 points and the winner receiving 96 points. If a racer breaks on a winning run, they are awarded points as a loser for the next round.
